Ask The Neurologist!

Diabetes-Related Neuropathy Can Be Managed!

60-70% of all persons with diabetes have some form of neuropathy. Seton Diabetes Education Center and Hands Feet & Heart Texas Chapter of the Neuropathy Association have teamed together to bring you the newest information on the diagnosis and treatment of diabetes-related neuropathy. Dr. Sara Austin, MD and Medical Director for Hands Feet & Heart will present

- An overview of neuropathy and symptoms one might experience
- Proven strategies to lower your risk of developing neuropathy
- Current diagnosis and cutting-edge treatment strategies!

Dr. Sara Austin is a practicing neurologist in Austin and is board certified in Neurology and also Neuromuscular disease (diseases of the peripheral nerve and muscle, including peripheral neuropathy). She is currently serving as the president of the Texas Neurological Association and she is on a council of the Texas Medical Association and the American Academy of Neurology. Her hobby is public policy and in 2007 she spent a year in Washington D.C. working on healthcare law with the Committee on Health, Education, Labor, and Pensions in the US Senate. Dr Austin is the Medical Director of Hands, Feet & Heart.
